
Direction of the motion
Constant load
$f_{load}(t)$
Load proportional to the track speed
$f_v^R(t)$
$f_v^L(t)$
Load proportional to the track speed
Right track speed
$v_{track}^R$
$v_{track}^{ref}\big|_R = v_{track}^{ref}\big|_L$
$f_v^R(t) = f_v^L(t)$
Left track speed
$v_{track}^L$
